Aegis Metal Framing Releases New Eco-Friendly Technical Binder

CHESTERFIELD, MO, MARCH 15, 2010: Aegis Metal Framing, a division of MiTek® Industries, is pleased to announce the debut of our newest marketing and technical product, the Aegis Technical Resource binder.

This beautiful new resource is a "must have" for any specifier/architect/engineer's library. The 2" wide, three D-ring binder is complete with information to assist the building team, including:

- Case Studies
- Green Building /LEED®
- Specifications
- UL assemblies
- Ultra-Span drawings and properties
- Extensive connection details

The binder spine is boldly marked to identify our products in Division 5 to reduce lost time for the architect and building professional to locate in their library.

~ MORE ~

In addition, the three D ring format allows for firms to easily update their library with new, fresh content and product information from Aegis.

"I believe the Aegis Technical Binder will be a top resource for architects, engineers, general contractors and fabricators using cold formed steel trusses." commented Tom Valvo, President of Aegis Metal Framing, "The updated content is superb in providing a wealth of information from engineering to Building Green / LEED®."

To request a copy of the New Division 5 Steel Truss Technical Binder, please visit www.aegismetalframing.com for more information.

Aegis Metal Framing, a division of MiTek, is the leading provider of pre-fabricated cold-formed steel truss and panel systems, and services for commercial, institutional and residential construction. Aegis provides a complete line of cold formed steel framing (also known as light gauge steel framing) including the UltraSpan® truss system, TradeReady® products (floor joists, headers, Spazzer bars) and WallSolutions™ pre-fabricated panels. For more information, please visit our website at www.aegismetalframing.com or contact our toll free number at 1-866-902-3447.
